

The Problem:  
Hugo and Sam organize a bake sale for your class. They sell cookies for 50 cents each. They earn 45.00 dollars. How many cookies did they sell?

What do we want to know?

What is the important information?

How should we go about solving this problem?

<p><b>Strategy Toolbox:</b></p> <p>Add</p> <p>Subtract</p> <p>Multiply</p> <p>Divide</p> <p>Make a picture</p> <p>Make a table</p> <p>Make a model</p> <p>Make the problem smaller</p> <p>Guess and check</p> <p>Work backwards</p>	<p>Workspace (attach other pages if needed)</p>
---	---

What is your solution?

Does this solution make sense?

**Reflection on this problem:**

Did you complete all the sections of the worksheet?

---

Is your work clearly presented so that others may understand how you solved this problem?

---

What was easy or difficult for you as your solved this problem?
